WHAT CAN A CERTIFIED LIFE UNDERWRITER_{CM} PROFESSIONAL DO FOR ME?

Risk management using insurance products can be simple or complex depending on your individual circumstances. Having good advice is imperative if you are to achieve your financial and lifestyle goals.

A CERTIFIED LIFE UNDERWRITER_{CM} professional can identify and explain how personal insurance can play a part in protecting your financial future. They can assess current coverage and help you develop an appropriate strategy to protect your family, business and financial objectives; discuss your options; quantify potential insurance needs; and oversee any recommended changes. The present value of your future financial goals and/or obligations is a good starting point when it comes to quantifying cover needs.

While it is important to set your goals and develop a plan to achieve these over time, it is even more important that these goals can still be achieved should something go wrong along the journey. A CERTIFIED LIFE UNDERWRITER_{CM} professional can give you the peace of mind and security that comes with being prepared for adverse events along the way.

WHAT TO EXPECT FROM AN INSURANCE ADVISER

It's important to ensure that your insurance adviser has taken the time to understand your needs, goals and preferences before they make recommendations.

1.

DEFINING THE RELATIONSHIP

The insurance adviser should explain the process they'll follow, find out what your needs are and make sure they are qualified to meet them. You can ask them about their background, how they work and how they are remunerated.

2.

IDENTIFYING YOUR RISKS

You work with the insurance adviser to identify your short and long term financial risks - this stage serves as a foundation for developing your insurance programme

3.

ASSESSING YOUR FINANCIAL SITUATION

The insurance adviser will take a good look at your position - your assets, liabilities, insurance coverage and investment strategies

4.

PREPARING YOUR INSURANCE PROGRAMME

The insurance adviser recommends suitable strategies, products and services, and answers any questions you have

5.

IMPLEMENTING THE RECOMMENDATIONS

Once you're ready to go ahead, your insurance programme will be put into action; where appropriate the insurance adviser may work with specialist professionals, such as a solicitor or an accountant

6.

REVIEWING THE INSURANCE PROGRAMME

Your circumstances, lifestyle and financial goals are likely to change over time, so it's important your insurance programme is regularly reviewed, to make sure you keep on track

WHAT TO LOOK FOR IN AN INSURANCE ADVISER

Look for an insurance adviser who is a member of Financial Advice New Zealand. New Zealand's leading professional community of financial advisers. Members of Financial Advice NZ must meet stricter criteria and higher standards than required by law.

CERTIFIED LIFE UNDERWRITER_{CM} professionals have gone one step further to achieve the highest qualification in insurance.

A good rapport is essential. Your insurance adviser is going to know more about you than your accountant or doctor, as he or she will have details of your finances, medical history and family situation. If you can't establish a good bond early on your first meeting with a insurance adviser, keep looking.

Insurance advice is a relationship business and not just a one-off meeting. Ask plenty of questions about the insurance adviser's qualifications and experience, and, especially whether they are a CERTIFIED LIFE UNDERWRITER_{CM} professional.

All CLU_{CM} professionals are authorised by the Financial Markets Authority (FMA) to provide personalised financial advice and are listed on the Financial Service Providers Register (FSPR) at www.business.govt.nz/fsp

WHAT SHOULD I ASK AT THE FIRST MEETING?

The introductory meeting with a insurance adviser is your opportunity to make sure that you feel comfortable with the adviser's professional credentials and that you get along well.

A sure sign of a good insurance adviser is that they don't rush you, carefully listen to you and clearly explain where they can add value and where they can't.

What qualifications do you have?

When choosing an insurance adviser make sure they have the necessary qualifications.

The simplest way to do this is to narrow your selection to a CERTIFIED LIFE UNDERWRITER_{CM} professional who has achieved the highest designation for insurance advisers.

What is your specialty?

Different insurance advisers have specific expertise in different areas, for example, some are only able to advise on limited areas, so you need to make sure that your insurance adviser is qualified in the areas that are relevant to you.

How do you charge for your services?

Many insurance advisers work on commission and will usually receive a payment from the insurance provider as a percentage of your premium.

As a CLU_{CM} professional and an Authorised Financial Adviser (AFA) they are required to disclose any commission and/or fees.

Depending on the complexity of your insurance requirements there may be separate fees for the writing and implementation of an insurance plan,
